### STAR GAZING at the Galena Territory Owner's Club

If you are fascinated by the stars or just love looking up to the sky, you are going to be amazed when you come out to our Star Gazing Nights!

We meet in the parking lot of the Owner's Club and observe our beautiful skies. Share your knowledge or start your star gazing adventure. Bring your own telescope or share one of ours.

On a clear sky, with no prominent moon, once properly dark adapted, it can be a life changing event. Depending on the time of the year, a subtle band of smokey light can be seen in the heavens which constitutes the outline of our galaxy.

**It is simply amazing!**
